THAI

Your Source for Critical and Hard to Find Parts

ABOUT US

For years, Falcon Dynamics, Inc. is committed to providing quality aircraft parts, superior customer service, reliable deliveries, and competitive prices to the aviation industry for major airlines and military world-wide.

In October 2007, we relocated our corporate and distribution headquarters to a new and customized building with a large warehouse located in Irvine, California. We are also in the process of finalizing the construction of our second 80,000 square feet customized distribution building located a cross from the Victorville Airport in city of Victorville, California.

Falcon Dynamics, Inc. has been designated as an Authorized Honeywell Distributor for Central Air Data Computer parts per a distribution and purchase agreement signed on June, 2003 for the amount of 46 million US dollars.

Falcon Dynamics, Inc. has access to thousands of aircraft parts through its in house and consigned inventories. We have the ability to support all rotables, expendables, and power plant, airframe, engine and interior parts as well as ground support equipments needed. All items stocked and sold have proper traceability and documentation. With the FAA Advisory Circular 00-56A, our DAR has the ability to issue 8130-3 to all new parts.

We understand the critical nature of our business, which is why Falcon Dynamics, Inc. has developed an extensive quality control program, where each items is inspected by a qualified professional who ensures that all FAA and EASA standards and requirements are met and/or exceeded. All parts are packaged and shipped according to ATA and DOT specification. Our in-house quality assurance inspectors have a combination of over 50 years experience in the commercial and military aerospace industry and its related field ground support. Our certifications are ASA-100 & AS9100C Accredited.

In addition, Falcon Dynamics, Inc. provides aircraft maintenance, evaluation, sales and leasing for commercial and private jets. Falcon Dynamics, Inc. is also a manufacturer and distributor of military parts. Also approved supplier to the Boeing Company. To find out more about our services, please go to the "Services" page in this website.

Thru Falcon Repair Services, Inc. , we have the capability to Overhaul, Repair and Test Hydraulic, Accessories, Airframe parts and continue growing. Falcon Repair Services, Inc. is FAA, EASA, AS9110B, THAI repair station certified. For further information on our repair & overhaul please visit www.falconrepairservices.com

Falcon Dynamics, Inc. is a well-established company with an excellent reputation for quality, reliability, and competitive prices while maintaining a high level of customer service and continue improving.

We thank you for considering Falcon Dynamics, Inc.
